**About the Accreditation Decisions**

“Accreditation Renewed” refers to previously accredited programs that have achieved accreditation again.

“Accreditation Granted” refers to programs that have achieved accreditation for the first time.

“Accreditation Continued” refers to programs that were “Accredited with Conditions” and have satisfactorily met their conditions.

Programs may be accredited for a maximum of a seven-year term. Programs with a shorter accreditation term have met the standards but are “accredited with conditions” related to the program’s ability to collect and/or use data aligned with one or more standards. Strengths in these programs indicate the programs’ capacity to address the concerns within two annual report cycles.
